### **2019 Ford Mustang GT500/Bullit**

**2019 Ford Mustang Shelby GT500 & Bullit:** The 2019 Ford Mustang 500 and Bullit are two special edition models based on the redesigned 2018 Ford Mustang GT. Both iconic Mustangs will continue to compete with amped-up versions of the Chevrolet Camaro and Dodge Challenger. The Mustang GT500 will utilize a highly-modified version of the 5.0-liter V8 found in the outgoing GT, promising a total output of over 700 horsepower. The Bullit is a throwback to Steve McQueen's 1967 Mustang driven in the Bullit movie, and it will feature a retuned 5.0-liter V8 engine with at least 475 horsepower and 420 lb.-ft. of torque. The Bullit will employ a six-speed manual transmission and reach a top speed of 163 mph, while performance specifications haven't been released for the 2019 GT500. Available features will include a customizable instrument cluster, Ford's SYNC 3 multimedia system, a smartphone app for remote control of select vehicle functions, heated steering wheel, heated seats, magnetic-ride suspension, LED headlamps and tail lamps, and a 12-inch LCD screen. Available safety features will include pre-collision system with pedestrian detection, distance-alert, lane-departure warning, lane-keep assist, driver-alert system, and dual-front airbags.
