

This covers both 2020 GT500 Scheduled for Production threads starting with Part 1 and ending with Part 2.

Part 1 covers all the members GT500's that were produced in 2019.

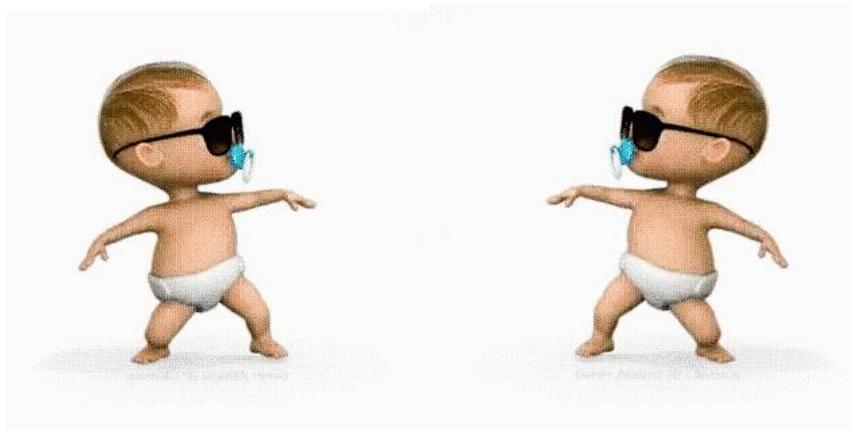

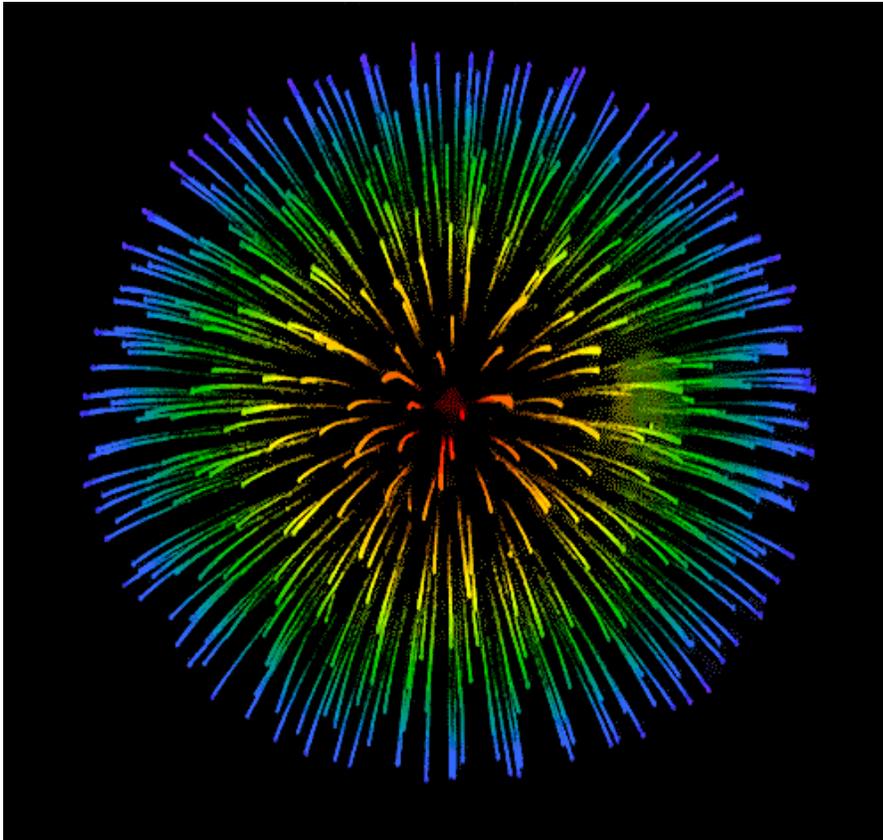

Part 2 covers all the members GT500's that were produced in 2020.

### Part 1

If your car has been scheduled for production, please post date, last 4 numbers of VIN and State where the car was ordered.

I figured it would be a lot easier to track the scheduled GT500's if they were all in one thread.

Congratulations to you all. The 2019 list is officially closed today with the delivery of the last two 2019 cars, [@kilobravo](#) and [@RapidResponder](#).
